In order to be equally fair to the other constituent companies of the United States steel corporation and accord them the same treatment, President Shaffer has sent a similar notice to the officers of the Federal Steel Co., the National Steel Co., and the National Table Co., giving them the same time in which to make any efforts they may desire to bring about, a settlement, or he will put in force this same clause in the Amalgamated association constitution.

FLAT-HEADED PEOPLE.

"If you are flat-headed there is thinking that you can love God w thinking that you can love God with as much intensity as if you had a better-shaped head" is the belief of Rev. James Wood Pogue, Pastor of the Fifth Presbyterian Church, Cincinnati.

The other day, before an audience in the Bible School, the Rev. Mr. Pogue read a paper on phrenology and physiognomy, in which he made the opening statement.

opening statement.

He believes that a study of these sciences is of great advantage to a Preacher, for by them he may determine the characteristics of the members of his congregation, and know how to reach each one according to the bumps on his head or the outline of his face.

face.

Mr. Pogue does not preach to the congregation as a mass, but individualizes and singles out the one he wishes to reach that time, and literally preaches at him, and believes that he always gets what he goes after.

Since April, when he took charge, he has added twenty-six new members to the Church, and considers this proof that his theory is a good one.

TO BE DEPENDED ON.

se It Is the Experience of a Maye ville Citizen and Can Readily Be Investigated.

A stranger lost in a large city would place far more dependence on the directions given him by a local resident than the guidance of another stranger like himself. This is natural consequence of experience; it is like a ship in a atrange port—a trusty pilot familiar with the harbor is called upon to bring her safely to her moorings. So it is with indorsement; we doubt the sayings of people living at distant points because we can't investigate, but public expression of local citizens can be depended on, for tiss an easy matter to prove it. Evidence like the following is beyond dispute.

In his Washington letter to The Dan-ville Advoçate Mr. Harry Giavonolli says of a well known ex-Maysville mandence like the following is beyond dis-pute.

Mrs. R. R. Housh of 894 Forest avenue says:

"Don't Kidner Pills quickly relieved Mr. Housh of backache, which has been time. I procured the remedy at J. Jas. Wood & Son's Drugstore, corner of West Second and Market streets, and its proven value is so great that it should be known throughout the world." The Investment Company has taken its place as a permanent institu-tion, and the prejudices that obstructed its early growth are disappearing in the light of experience in its workings. For many months the people of Ma-son county have been sending over \$1,000 a month to be invested in com-anies at Lexington and other places. Now that we have a Company at home whose plan is the latest and most approved and whose Managers are person-ally known to you as men of standing and integrity, why not put your invest-ment with them? Patronize your home institution, and your city and county will develon.

ally known to you as men of standing and integrity, why not put your investment with them? Patronize your home institution, and your city and county will develop.

There is still a lingering prejudice in the minds of many people against the investment business. This arises largely from lack of information as to the real principles upon which the business is founded.

Our older citizens remember when the first Building Association was started in Maysville. There was a great deal of opposition to it, but it lived down the prejudice and was the forerunner of the three prosperous institutions of that kind in Maysville. The Building Association depends for its success centirely. The Building Association depends for its success centirely that the insurance was a rarity in Maysville in the preceding generation, but now it is difficult to find a man entirely uninsured, who is healthy enough to stand a medical examination.

Life insurance is run upon precisely the same principles as an Investment Company, but pays the profits to the dead man's estate.

Our plan is open to the sick and feeble, to whom life insurance is barred, as well as to the healthy and strong. Don't let prejudice stand in your way because the business is unfamiliar to you, but investigate for your-self, and you like others will be convinced. Call at our office or write to the
